Top 10 simple cyber-attack prevention tips.

routen chaplin.

Protect your business' reputation and the cost of restoring your online systems.

01_

Use passwords that are not easy to guess and avoid using the same one for different systems.

[Always use a combination of uppercase and lowercase letters and numbers.]

02_

Update software regularly as it will contain the most recent security measures.

[Check your software preferences and make sure that automatic updates are turned on.]

03_

Always back up using the 3-2-1 rule
(3 copies, 2 different Media, 1 copy off-site).

[There are a number of online services that
will back up your machine automatically.
Search: online backup.]

04_

Be aware of installing software,
especially if you did not actively source it.

[Before you click install make sure you check that it is
software you have chosen to download.]

05_

When browsing check for a secure
connection in your browser (HTTPS).

[Check for the padlock symbol next to the website
address at the top of the browser window.]

06_

Use two-factor authentication
where available.

[Check your preferences and enable this if you can.]

07_

Encrypt all sensitive data.

[There are a number of encryption services and tools that will automatically encrypt your data. Search: data encryption tools.]

08_

Use an ad-blocker on all websites.

[Designed to protect your privacy and prevent malicious malware attacks.]

09_

Disable third-party cookies in
your browser.

[Block cookies that aren't delivered by the site you're
visiting, but used by scripts or content delivered
from other sites. Check your browser preferences.]

10_

Get a Cyber Insurance policy to support
your cyber security strategy.

[Discuss your cyber strategy with Routen Chaplin
who will advise on the most suitable insurance
product for your needs.]

Cyber and Data Risk Insurance.

Routen Chaplin would like to thank you
for attending the Cyber Crime Seminar,
of which we are proud to sponsor.

With cyber criminals launching more attacks on UK
businesses than ever before, all businesses, regardless
of size and industry, could fall victim to a cyber-attack
or data breach. Therefore, it is imperative you and your
employees are cyber aware and vigilant.

A Cyber and Data Risk Insurance policy can help ease
the financial burden of suffering a data breach, whilst
also giving you guidance on prevention methods.

Key features of Cyber Risk Insurance can include:

- Breach costs covered - investigation and restoration of systems
- Business interruption cover
- Crisis response
- PR crisis management
- Costs of regulatory penalties and fines covered
- Cover for cyber extortion

If you haven't had chance to talk to our Cyber Expert, Julie Cherry, today or wish to discuss your requirements further, please call 0115 973 7303 or email julie.cherry@routenchaplin.co.uk.
